ABOUT ME

Enthusiastic and adaptable Management Information Systems undergraduate with a strong interest in Business Analysis, Project Management and Software Quality Assurance. Passionate about analyzing business requirements, improving processes, supporting successful project delivery and ensuring software quality. Skilled in problem-solving, analytical thinking, communication and teamwork through academic projects and practical learning experiences. Eager to apply my knowledge in a professional environment, gain hands-on industry experience and continuously develop both technical and managerial skills while contributing to organizational success.

EDUCATION

Bachelor of Science in Management Information System (Special) -Undergraduate NSBM Green University (Ongoing 2024 - 2027)

PET course at **Cambridge College of British English** (2022)

Passed **G.C.E. Advanced Level Examination** - Physical Science Stream 2021(2022)

PROJECTS

AI Resume Builder Application – Flutter, Firebase, AI

Designed the system architecture and workflow of an AI-powered resume builder, defining frontend, backend and AI integration while supporting system analysis and documentation.

Relax-On Mobile Application - UI/UX Design Project

Conducted user research and requirement analysis to design an inclusive mindfulness mobile application using Figma. Created user personas, user flows, wireframes, and high-fidelity prototypes while applying user-centered design and accessibility principles to enhance usability and user experience.

Warehouse Management System - Java EE Project

Built a web-based Warehouse Management System using Java EE, JSP, Servlets, JDBC and MySQL. Contributed to system analysis and design by creating UML, ER and architecture diagrams while working collaboratively in a team using MVC architecture and Git.
